

# Family Centers

Family Centers are spaces designed to support and enhance the resources of families in all evolutionary stages of the life cycle, through information and orientation to families, socialization spaces.

## Objective of the measure

The objective is to strengthen the real ability to intercept the different needs of families and offer a flexible and articulated response by providing services ranging from parenting support groups, to self-help groups, from time banks, to study support, information, orientation and consultancy desks, recreational and socialization opportunities.

## Beneficiaries

The beneficiaries are all families in their universality.

## Type and characteristics of the measurement

Family Centers can be managed by public or private entities.

The Centers carry out the following activities:

- Information and orientation of families;
- Informal socialization spaces for families;
- Listening spaces for families;
- Listening spaces also "timely" for pre-adolescent and adolescent minors and them

parents, also in conjunction with other interventions already present in the territories;

- Strengthening parenting skills;
- Promotion of recreational/cultural activities aimed at encouraging the socialization of families;
- Mutual help and/or solidarity groups between families;
- Intergenerational meetings;

## Access mode

You can contact us directly and free of charge by accessing the Family Centers indicated.
